

## Lehigh Employees Contribute to Their Communities for the Holidays

### Glens Falls, NY CHRISTMAS PROJECT

Glens Falls employees carry on a 20-year tradition by helping needy families at Christmas. Apparently in upstate New York, Santa's sleigh has wheels!

Help-A-Needy Family. Following a tradition for more than 20 years, employees from the Glens Falls Plant volunteered to help local families who, through no fault of their own, have difficulty providing for themselves with food, clothing, and Christmas gifts.

The process begins with employees forming a committee to identify the families. Employees donated their own money and volunteered their own time to purchase, wrap, and deliver food, clothing, and toys to four local needy families, which provided nine children, ranging in age from 3 to 13, a very special Christmas.

The Company doubled the match of the employee contributions bringing the level to a total amount of \$2,500. Several employees were hired by Santa to help deliver the gifts to the families in the Glens Falls area: John Ingalls, Nadine Mayo-Hill, Carol Otoupal, Mike Graham and wife Donna Graham, Al Carrow, Brian Bayles, Debbie Tabor and daughter Ciara Tabor and fiancé Bryne Viele.

Nadine Mayo-Hill's husband Tim Hill donated the delivery truck and built the red Santa sled on his own time. Cards and letters from the families have been received showing thanks. Knowing that a child's Christmas was made special is the best present our employees could receive!

### Woodsboro, MD CHRISTMAS PROJECT

Woodsboro Plant employees donated money, food and clothing items to the Holiday Help Program for the New Midway/Woodsboro Elementary Schools Caring Committee.

The employees raised \$612.50, which was generously matched by Lehigh to make our total monetary donation \$1,225. Because of this donation the schools were able to provide clothing, shoes, boots and toys for 11 children. Thank you to all the employees who helped to make a child's Christmas a little brighter.
