## Texas Lehigh Cement Company Cyclists Help Raise Awareness for the National Multiple Sclerosis Society

Look carefully at all the cyclists above from Texas Lehigh. There they are in real life, against a promotional billboard for the MS event, which features the company's red, white and blue-clad team from 2005.

Texas Lehigh Cement Company has fielded a bicycle team for the past three years to help raise money and awareness for the National Multiple Sclerosis Society. The team has ridden the two day, 150- mile cycling event between San Antonio and Corpus Christi Texas with employees, customers and local members of the community participating.

This year, the team from 2005 was featured on the billboards, advertisements and certificates for the 2006 race. In 2006, the team raised more than \$4,000 for the event.
