Operating Income (US \$millions)	\$223	\$300	\$473
Sales Volumes			
Cement (millions of metric tons)	12.5	13.4	14.7
Ready Mixed Concrete (millions of m ³)	7.1	7.1	8.5
Aggregates (millions of metric tons)	26.3	25.3	29.1
# of Employees	5,334	5,111	5,790

2005 Gross Sales

Lehigh and its associated companies in North America are major participants of the HeidelbergCement Group, contributing 38% of the Group's operating income and 28% of total sales in 2005.

Production and Marketing Highlights

Lehigh is the first multi-plant cement company in North America to produce gray cement solely with pre-heater kiln technology. Pre-heater kilns conserve energy and cut greenhouse warming gases and other air emissions. By investing in modern technology, Lehigh saves natural resources, contributes to cleaner air and enhances its bottom line.

Lehigh increased its share in the Glens Falls Lehigh Cement Company from 50% to 100% in 2005. Adding the cement plant in New York and terminals throughout New York and New England to Lehigh's existing facilities makes Lehigh the clear market leader from Maine to Virginia.

Another strategic move in 2005 further strengthened Lehigh's asset portfolio. Already a 50% owner, Lehigh purchased the other 50% of Campbell Concrete & Materials in Houston. Campbell, with annual revenues over \$200 million per year, is the largest ready mixed concrete company in southern Texas. At the same time, Lehigh divested the concrete pipe portion of its assets in Sherman Industries in Alabama. The dual transaction is a logical step supporting Lehigh's focus on core businesses.
